**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, see amendment, filed 03 July 2007, with respect to claims 7-13 have been fully considered and are persuasive. The rejection of claims 7-13 has been withdrawn.

***Allowable Subject Matter***

2. Claims 7 and 10-13 are allowed.

3. The following is an examiner's statement of reasons for allowance: While the prior art teaches setting a number of prints for images stored in a camera (see for example: Parulski et al., US 6,573,927, Appendix 2; Makishima et al., US 6,686,964, Figures 1 and 3) as well as a device configured to print all images stored in a camera (Hatakenaka et al., US 6,563,542, Figure 4B, PRINT ALL), the prior art does not teach or fairly suggest a camera including an each frame print number setting device and an all frame print number setting device wherein the all frame print number setting device operates in the manner described in claims 7-13. While Makishima teaches printing all frames stored in a camera, the all frame printing device of Makishima does not set or increase a print number as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
